- **Concepts** — Responsive Web Design, JWT Authentication, API Integration

PROJECTS

JaldiKharidoo — E-Commerce Web Application 📄, [React.js](#) · [Node.js](#) · [Express.js](#) · [MongoDB](#) · [Tailwind CSS](#)

Developed a full-stack e-commerce application featuring product browsing, cart management, user authentication, checkout, order history, and admin functionality. Built a responsive React interface and integrated REST APIs with Node.js, Express.js, and MongoDB.

Bloggg 📄, [React.js](#) · [Node.js](#) · [Express.js](#) · [MongoDB](#) · [Tailwind CSS](#)

Developed a full-stack blogging platform that enables users to create, manage, and explore blog content through a responsive and user-friendly interface. Built the frontend with React.js and integrated backend APIs and MongoDB for dynamic content management.

Portfolio — Personal Developer Portfolio 📄, [React.js](#) · [JavaScript](#) · [Tailwind CSS](#)

Designed and developed a responsive personal portfolio to showcase projects, technical skills, and development experience. Focused on modern UI design, smooth interactions, reusable components, and an engaging experience across different screen sizes.

Sundown Studio — Interactive Frontend Website 📄, [HTML](#) · [CSS](#) · [JavaScript](#) · [GSAP](#)

Developed a responsive and interactive creative studio website using HTML, CSS, and JavaScript. Implemented smooth scrolling, hover effects, animations, and an interactive client logo swiper to create an engaging user experience.
